

Documentation & User Guideline

Author : SoftTech-IT Ltd.

Software Framework : Laravel 7

MANY VENDOR

2020 © All Rights Reserved @ SoftTech-IT Ltd.

Overview

By going through this documentation an admin / seller / user will have a proper idea about this system. This documentation has been divided into two(2) sections.

1. Describing System's Features

(Multivendor)

- Admin

- Dashboard
- User Management
- Manage Product
- Manage Commission
- Campaigns
- Coupons
- Manage Seller
- Manage Order
- Fulfillment
- Manage Complain
- Promotions
- Pages
- Shipping
- Seller Payment
- Admin Earning
- Frontend Settings
- Site Settings

- Seller

- Dashboard
- Campaigns
- Manage Product
- Manage Order
- New Product Request
- Brand Request
- Category Request
- Withdraw Method
- Earnings

- **Client Side** (Public & User Interface)

(E-commerce)

- **Admin**

- Dashboard
- User Management
- Manage Product
- Campaigns
- Coupons
- Manage Order
- Fulfillment
- Manage Complains
- Promotions
- Pages
- Shipping
- Frontend Settings
- Site Settings

- **Client Side** (Public & User Interface)

2. How to operate the system!

- **How to Install the system?**
- **How to add a new admin/user?**
- **How to add a brand?**
- **How to create a category?**
- **How to create product variants?**
- **How to add a product?**
- **How to create commission?**
- **How to start a campaign?**
- **How to create a coupon?**

- **How to add a new seller/shop?**
- **How to add a logistic?**
- **How to add a shipping zone?**

- **How to manage homepage sections?**
- **How to add payment methods?**

- **How to create a new page for the system (for the website)?**
- **How to update the website information?**
- **How to configure SMTP settings?**
- **How to add a new language?**
- **How to set a new currency?**

- **How to add products to a campaign as a seller?**
- **How to upload a product as a seller?**

These topics cover all the queries of an admin / seller / user from the installation to the final use of the system.

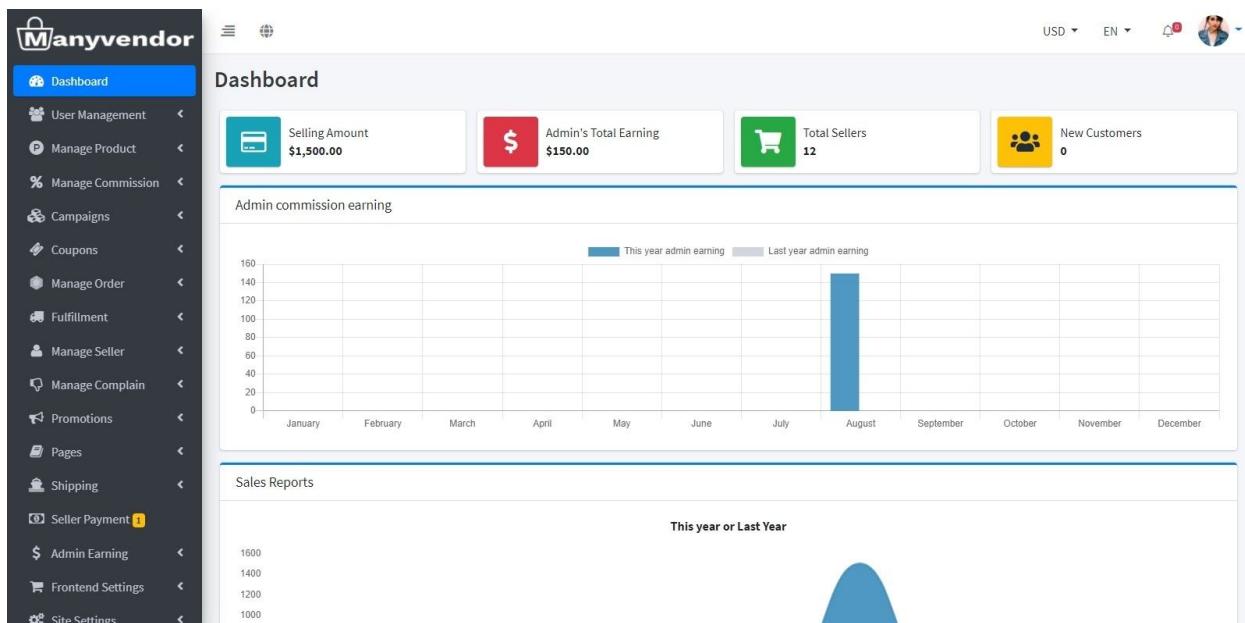

1. Features of the Many Vendor system

Admin Panel

- Dashboard

- In this page, **Admin** can see the total selling price using the system, admin's total earning, total sellers registered in the system and total number of customers.
- Admin can also see a **comparison chart** of his/her **Last year's vs Present year's** earning.
- Admin can see a **yearly sales report's chart**.
- Admin can have a quick overlook to the **newly added sellers**.
- There are **Two Pie Charts** showing the **delivery and complains report**.
- Admin can see the **Latest Orders**.

The **User Interface** of the dashboard looks like-

User Interface of Dashboard

- User Management

- Users

- o In this page, admin can see the **users list**.
- o Admin can **add a new user..**

The **User Interface** of the “**User management > Users**” looks like-

This screenshot shows the 'User List' page of the ManyVendor application. The left sidebar has a 'User Management' dropdown expanded, with 'Users' selected. The main area is titled 'User List' and contains a table with two rows of user data. The columns are S/L, Avatar, Name, Contact, Groups, Last Login, and Action. The first user, 'Admin', has an email of admin@mail.com and a phone number. The second user, 'Mr. Staff', has an email of staff@mail.com and a phone number. Both users are assigned to the 'super admin' group.

S/L	Avatar	Name	Contact	Groups	Last Login	Action
1		Name : Admin	Email : admin@mail.com Phone :	super admin	6 minutes ago	Edit
2		Name : Mr. Staff	Email : staff@mail.com Phone : 10110111000	Staff	7 hours ago	Edit

User Interface of user management(Users)

This screenshot shows the 'Create User' form within the 'User List' page. The left sidebar shows the 'User Management' dropdown with 'Users' selected. The form fields include Name (text input), E-Mail Address (text input), Phone Number (text input), Gender (dropdown), Password (text input), Confirm Password (text input), and Select Groups (dropdown). A 'Save' button is at the bottom right. The 'User List' button in the top right corner is highlighted.

User Interface of user management(Add User)

- Groups

- o In this page, admin can see the **Group list**.
- o Admin can edit any group.

The **User Interface** of the “**User management > Groups** ” looks like-

The screenshot shows the 'Group List' page in the ManyVendor admin interface. The left sidebar has a 'Groups' section selected. The main area displays a table with four rows, each representing a group with its name, slug, and a list of permissions. The permissions are shown as a grid of colored buttons. The footer contains copyright information.

S/L	Name	Permissions	Action
1	Name : super admin Slug : super-admin	dashboard user management user setup group setup manage permissions mail configuration site settings language setup currency setup manage pages category management commission management section settings additional setting manage product variant manage product commerce setting manage brand manage campaign payment method setup promotions banner setup main slider shipping setup coupon setup order manage fulfillment manage complain admin earning seller management seller payment switch mode	Edit
2	Name : customer Slug : customer	customer	Edit
3	Name : seller Slug : seller	order manage seller order modify	Edit
4	Name : Staff Slug : staff	dashboard category management commission management section settings manage product variant manage product manage brand manage campaign order manage fulfillment manage complain customer order modify	Edit

Requested by seller

User Interface of Manage Campaign(Campaign)

- Coupons

- Create Coupon

- o Admin can see all the **Coupons List** here.
- o Admin can edit **Coupons**.
- o Admin can change the active status of a coupon.

The User Interface of the “Coupon > Create Coupon” looks like-

The screenshot shows the 'Coupons' section of the ManyVendor admin interface. On the left, a sidebar lists various management categories like Dashboard, User Management, Manage Product, etc., with 'Coupons' currently selected. The main area is titled 'Coupons' and contains a form for creating a new coupon. The form fields include:

- Coupon Code:** A text input field.
- Discount Amount:** A text input field.
- Starting Date:** A date input field with a calendar icon.
- Ending Date:** A date input field with a calendar icon.
- Minimum Shopping Amount:** A text input field.
- Is published?**: A checkbox.

A blue 'Submit' button is located at the bottom of the form. Below the form is a table titled 'Coupon Informations' with the following columns:

S/L	Code	Discount	Minimum Shopping	Start Date	End Date	Status	Action
NO COUPON FOUND							

At the very bottom of the page, there is a copyright notice: 'Copyright © 2020 Many Vendor, All rights reserved'.

User Interface of Coupon(Create Coupon)

- **Manage Seller**

- **Add New Seller**

- In this page, admin can **add a new seller**.
- Admin need to provide necessary information of the seller and save.

The **User Interface** of the “**Manage Seller > Add New Seller**” looks like-

The screenshot shows the ManyVendor admin interface. The left sidebar has a dark theme with white icons and text. The 'Manage Seller' section is expanded, and 'Add New Seller' is selected. The main content area is titled 'Add New Seller' and contains a form for adding a new seller. The form includes fields for Shop Name, Owner name, Shop email, Shop number, Nationality, Gender (with radio buttons for Male, Female, Other), Trade Licence, Address, About, and Facebook. There is also a placeholder for 'Seller Shop Logo' with a circular upload icon. At the bottom right of the form is a blue 'Save' button.

User Interface of Manage Seller (Add New Seller)

- Seller Request

- In this page, the admin can see **All Seller Registration Requests**.
- Admin can check those requests to approve / delete.

The User Interface of the “Manage Seller > Seller Request” looks like-

The screenshot shows the ManyVendor user interface. On the left, there is a dark sidebar with various menu items: Dashboard, User Management, Manage Product, Manage Commission, Campaigns, Coupons, Manage Order, Fulfillment, Manage Seller (which is currently selected), Add New Seller, Seller Request (which is highlighted), All Seller, Manage Complain, Promotions, Pages, Shipping, and Seller Payment. At the top right, there are currency and language selection dropdowns (USD, EN) and a user profile icon. The main content area is titled "Seller Requests" and contains a table header with columns: S/L, Logo, Shop name, Name, Email, Phone, Trade Licence, Request date, and Action. Below the header, a message says "No Request Found". At the bottom of the page, there is a copyright notice: "Copyright © 2020 Many Vendor, All rights reserved".

User Interface of Manage Seller(Seller Request)

- **All Seller**

- o In this page, the admin can see the **All Seller List**.
- o Admin can see details of any specific seller.

The User Interface of the “Manage Seller > All Seller” looks like-

S/L	Logo	Shop name	Name	Email	Phone	Trade Licence	Join date	Action
1		Merys Dot	Walton	seller@mail.com	123456789	1234	1 month ago	<button>View</button>

User Interface of Manage Seller (All Seller)

- Manage Order

- Orders

- Admin can see all the orders.
- Admin can see **Pending(new) orders**.
- Admin can see all the orders according to their status.
- Admin can **Manage cash on delivery orders** from here.
- Admin can **Search orders**.

- Fulfillment

- Find in Logistics

- Admin can track orders by Logistics from here.
- Admin need to search a product by different queries according to admin's need.
- Or admin can filter orders by logistics and track an order.

- **Manage Complain**

- **Complains**

- o Admin can see all the **Complains** from the customer.
- o Admin can mark a problem as solved after solving.
- o Admin can mark as unsolved also.
- o If the admin doesn't mark any complain, it will be shown as untouched.

- **Promotions**

- **Category Promotions**

- o Admin can see all the **Category promotions**.
- o Admin can add new promotions.

- **Slider Widgets**

- o Admin can see all the **Slider widgets**.
- o Admin can add new **Slider widgets**.

- **Main Slider**

- o Admin can see all the **Slider Images**.
- o Admin can add new **Slider Images**.

- **Pop Up**

- o Admin can see all the **Pop Up promotions**.
- o Admin can add new **Pop Up promotions**.

- **Promotion Section**

- o Admin can see all the **Promotion Section Promotions**.
- o Admin can add new promotions.

- Pages

- Page Group

- o In this page, admin can see the **Page's Group List** of pages, and create a **New Group**.
- o **Pages are shown in frontend under this group.**
- o Admin can edit / delete a group.

The **User Interface** of the “**Pages > Page Group**” looks like-

The screenshot shows the 'Page Group' section of the Manyvendor admin interface. On the left, there is a sidebar with various menu items: Manage Product, Manage Commission, Campaigns, Coupons, Manage Order, Fulfilment, Manage Seller, Manage Complain, Promotions, Pages (which is selected), Page group, Pages, Info Page, Shipping, Seller Payment, Admin Earning, and Frontend Settings. The main content area has a header 'Page Group' and a sub-header 'Page Group list'. Below this is a table with four rows:

S/L	Name	Published	Action
1	Company Total Page 2	<input checked="" type="checkbox"/>	<input type="button" value="Edit"/>
2	Menu Total Page 3	<input checked="" type="checkbox"/>	<input type="button" value="Edit"/>
3	Resource Total Page 1	<input checked="" type="checkbox"/>	<input type="button" value="Edit"/>
4	Knowledge Base Total Page 1	<input checked="" type="checkbox"/>	<input type="button" value="Edit"/>

To the right of the table is a 'Page Group create' form with a 'Name' input field and a 'Save' button. At the bottom of the page, there is a copyright notice: 'Copyright © 2020 Many Vendor, All rights reserved'.

User Interface of Pages (Page Group)

- Pages

- o In this page, the admin can see the **All Pages List**.
- o Admin can add page content to each page.
- o Admin can edit / delete a page.

The **User Interface** of the “**Pages > Pages**” looks like-

The screenshot shows the Manyvendor admin interface. The left sidebar has a tree-like navigation with categories like Dashboard, User Management, Manage Product, Manage Commission, Campaigns, Coupons, Manage Order, Fulfillment, Manage Seller, Manage Complain, Promotions, and Pages. The 'Pages' option under Promotions is currently selected. The main content area is titled 'Pages list' and contains a table titled 'Page List'. The table has columns for S/L, Title, Total Content, Active, and Action. There are 7 rows in the table, each representing a page: 'How It Works', 'Reviews', 'Privacy Policy', 'Cookie Policy', 'Purchasing Policy', 'About Us', and 'Affiliate Marketing'. All pages are marked as active. A 'Create New Page' button is located at the top right of the table area. The footer of the page includes the text 'Copyright © 2020 Many Vendor, All rights reserved'.

S/L	Title	Total Content	Active	Action
1	How It Works	1	<input checked="" type="checkbox"/>	<input type="button" value="Edit"/>
2	Reviews	1	<input checked="" type="checkbox"/>	<input type="button" value="Edit"/>
3	Privacy Policy	1	<input checked="" type="checkbox"/>	<input type="button" value="Edit"/>
4	Cookie Policy	1	<input checked="" type="checkbox"/>	<input type="button" value="Edit"/>
5	Purchasing Policy	1	<input checked="" type="checkbox"/>	<input type="button" value="Edit"/>
6	About Us	1	<input checked="" type="checkbox"/>	<input type="button" value="Edit"/>
7	Affiliate Marketing	1	<input checked="" type="checkbox"/>	<input type="button" value="Edit"/>

User Interface of Pages (Pages)

- Info Page

- In this page, admin can add a Special(highlighted) **Page**.
- These pages are focused in the footer section to catch customer's attention.
- Admin can Edit / Delete an Info page from here.

The **User Interface** of the “**Pages > Info Page**” looks like-

The screenshot shows the ManyVendor admin dashboard. The left sidebar has a navigation menu with various sections like Dashboard, User Management, Manage Product, Manage Commission, Campaigns, Coupons, Manage Order, Fulfillment, Manage Seller, Manage Complain, Promotions, Pages, Info Page (which is selected), Shipping, Seller Payment, and another Seller Payment. The main content area is titled 'Info pages' with a subtitle 'These pages will be focused to customers in footer section'. It shows a table titled 'Info Pages List' with four rows:

S/L	Header	Action
1	Support 24/7 bottom Page : About Us	<button>▼</button>
2	Secured Payment bottom Page : Privacy Policy	<button>▼</button>
3	Product Quality bottom Page : Purchasing Policy	<button>▼</button>
4	Special Offer bottom Page : Purchasing Policy	<button>▼</button>

To the right, there's a form for 'Add Info page' with fields for Header (with placeholder 'Ex: Header'), Icon (placeholder 'Ex: Icon class only'), Small text (placeholder 'Ex: small description'), Select Section (dropdown with 'Top Section'), Select page (dropdown with 'Choose option'), and a 'Save' button.

Copyright © 2020 Many Vendor, All rights reserved

User Interface of Pages (Info Page)

- Shipping

- Shipping Zone

- In this page, admin can see the **existing Shipping zone according to different logistics**.
- Admin can **Add New Shipping Zone**.
- Admin can edit / delete existing shipping zones.

- Logistics

- In this page, the admin can see the **All LogisticsList**.
- Admin can **Add New Logistics**.
- Admin can edit / delete a Logistic.

The User Interface of the “Shipping > Logistic” looks like-

The screenshot shows the Manyvendor admin dashboard. The left sidebar has a dark theme with white icons and text. It includes links for Dashboard, User Management, Manage Product, Manage Commission, Campaigns, Coupons, Manage Order, Fulfilment, Manage Seller, Manage Complain, Promotions, Pages, Shipping (which is selected and highlighted in blue), Shipping Zone, Logistics (which is also highlighted in blue), Seller Payment, and Admin Earnings. The main content area is titled "Logistics" and contains a table titled "Logistics". The table has columns for S/L, Logistics, Status, Signed at, and Action. There are three rows: 1. Sky Logistics (Status: green switch, Signed at: 6 hours ago), 2. East End (Status: green switch, Signed at: 6 hours ago), and 3. Paperfly (Status: green switch, Signed at: 6 hours ago). A blue button labeled "Add Logistic Company" is in the top right of the table area. The bottom of the page has a copyright notice: "Copyright © 2020 Many Vendor, All rights reserved".

User Interface of Shipping (Logistic)

- **Seller Payment**

- **Seller Payment**

- o In this page, admin can see the **existing Seller's Payment requests**.
- o Admin can **Pay the Seller from their requests**.

- **Admin Earning**

- **Earnings**

- o Admin can see his/her earning details here.
- o Admin can see a chart based on running year's revenue.

- **Frontend Settings**

- **Sections**

- o In this page, the admin can change the section's order of the homepage of frontend.

- Admin need to drag and drop to change order.
- Admin can disable a section, that section will not be shown in frontend.

The **User Interface** of the “Frontend Settings > Sections” looks like-

The screenshot shows the 'Section setting' page in the Manyvendor admin dashboard. The left sidebar has a dark theme with white text. It lists various settings: Manage Commission, Campaigns, Coupons, Manage Order, Fulfillment, Manage Seller, Manage Complain, Promotions, Pages, Shipping, Seller Payment, Admin Earnings, and Frontend Settings. Under 'Frontend Settings', 'Sections' is selected. The main content area is titled 'Section setting' and contains a sub-instruction 'Drag and Drop sections to change order'. Six sections are listed in a grid: 1. Hero Section (with a preview of a landing page), 2. Campaigns (with a preview of a campaign page), 3. Trending Category (with a preview of a trending categories page), 4. Shops (with a preview of a shop page), 5. Brands (with a preview of a brands page), and 6. Promotions (with a preview of a promotions page). Each section has a green toggle switch below its preview.

User Interface of Frontend Settings(Sections)

- **General Settings**
 - Admin can **add the details of the system, change the logo from here.**
- **Site Settings**
 - **Language Settings**
 - In this page, admin can configure **Multiple Languages** for the system.

The **User Interface** of the “Site Settings > Language Settings” looks like-

The screenshot shows the Manyvendor admin dashboard. On the left, there's a sidebar with various settings like Manage Seller, Manage Complain, Promotions, Pages, Shipping, Seller Payment, Admin Earnings, Frontend Settings, Site Settings (which is selected), Languages Settings (which is highlighted), Currency Settings, SMTP Settings, Social Login, Payment Methods, Switch Mode, and System Settings. The main content area has two tabs: 'Language List' and 'Language Setup'. The 'Language List' tab shows a table with one row: # 1, Code en, Name English, Flag USA, Action with 'Translate' and 'Set Default' buttons. The 'Language Setup' tab has fields for Name (Ex: English), Code (Ex: en for english), and Select country flag (CHOOSE OPTION). A 'Save' button is at the bottom right.

User Interface of Language Settings

- **Currency Setting**

- o In this page, the admin can see all the **Currency lists**.
- o Admin can **add new currency**.
- o Admin can set default currency.
- o Admin can publish/unpublish a currency.
- o Admin can set alignment of currency symbol

The **User Interface** of the “Site Settings > Currency Setting” looks like-

User Interface of Currency Settings

- **SMTP Setting**
 - o Admin can configure the **SMTP settings** to send **email notifications**.

- **Payment Methods**
 - o In this page, the admin can integrate **Paypal, Stripe** payment methods for the system.
 - o Admin need to insert data according to the form.
 - o Admin can add all the payment method's image for the footer section of the frontend.

The **User Interface** of the “**Site Settings > Payment Methods**” looks like-

The screenshot shows the Manyvendor admin interface. On the left, a sidebar lists various management sections: Dashboard, User Management, Manage Product, Manage Commission, Campaigns, Coupons, Manage Order, Fulfillment, Manage Seller, Manage Complain, Promotions, Pages, Shipping, Seller Payment, Admin Earning, Frontend Settings, and Site Settings. The 'Site Settings' option is currently selected. In the main content area, there's a header 'Setup Payment Methods'. Below it, there are two sections: 'Paypal' and 'Stripe'. Under 'Paypal', there are fields for 'PAYPAL CLIENT ID' (containing AS-5ewG-JNzoObeL1LN87JjNGeHhkuskK5S6l3p3nJOymiczjyLvbjRdBXLqRumjcanat_iT-05itq6) and 'PAYPAL APP SECRET' (containing EITHVfJUJol40GYUocYhetil_fHzV85tb3RytFFT29a9bN8hgE9tnrk7KhCDpDevL6niNkf0vsO8mTc3). Under 'Stripe', there are fields for 'STRIPE KEY' (containing pk_test_Nr6hlHbDo44RWI4N6QhdYZNP00KS5i1IKX) and 'STRIPE SECRET' (containing sk_test_S5nEvoXdlANiZ82rW099JE0800KB1boacQ). At the bottom right, there is a blue 'Save' button.

User Interface of Manage System(Payment Method)

- **System Settings**

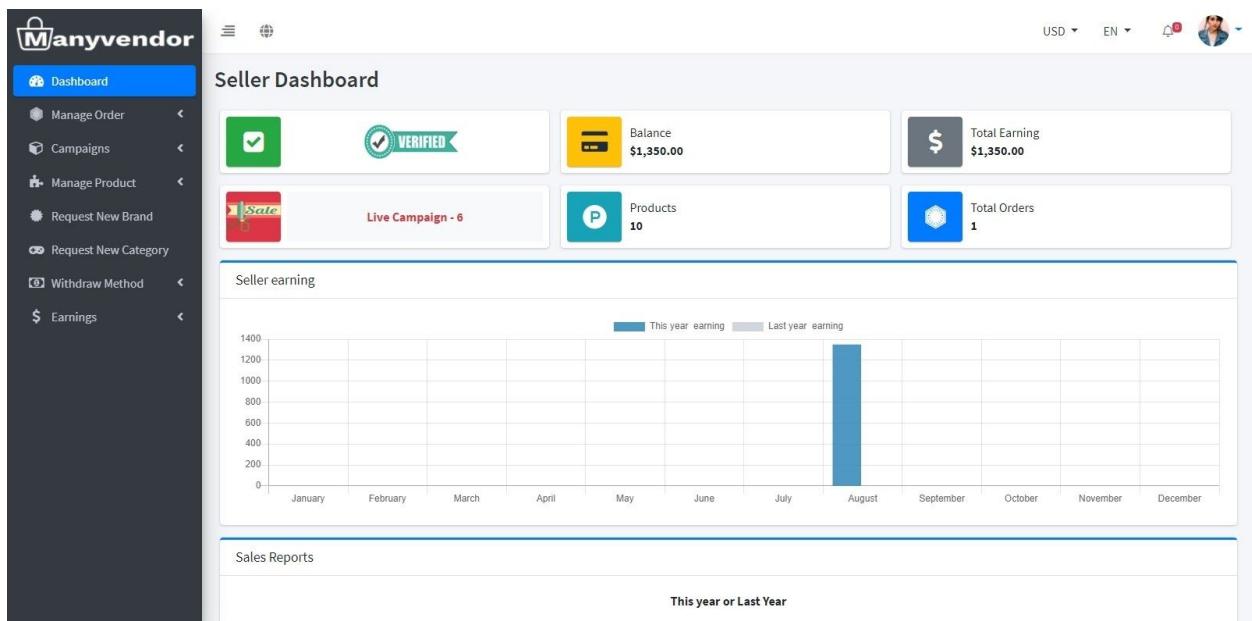

- Admin can change seller status for the system.
- Admin can Activate / Deactivate- Brand /category / Product Request mode for sellers. These will be directly added from the seller panel.

The User Interface of the “**Withdraw Method > Withdraw**” looks like-

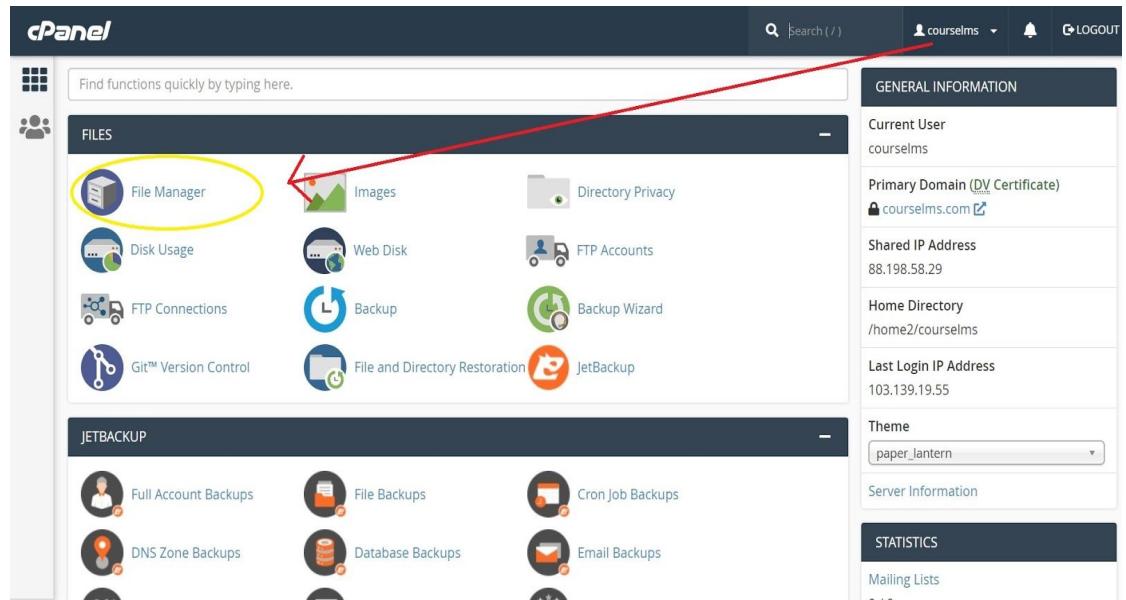

User Interface of Manage Order(Orders)

- **Setup Account**
 - Sellers can set up their payment account from here.
 - To send a withdrawal request, sellers have to set up at least one payment option first.
 - **Earnings**
 - **Overview**
 - Seller can see his/her earning details here.
 - Sellers can see a chart based on running year's revenue.

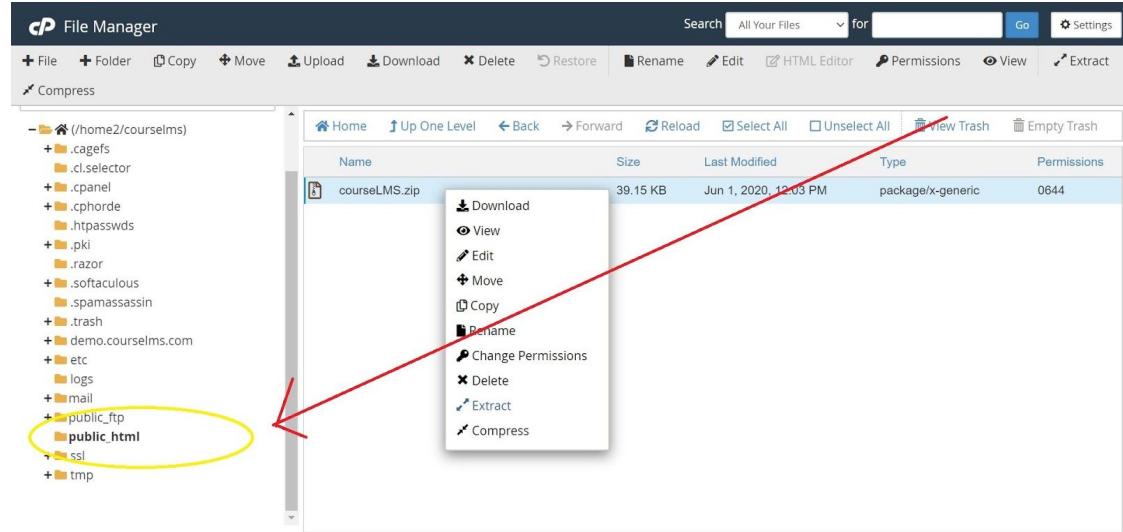

2. How to operate the system!

1. How to Install the system?

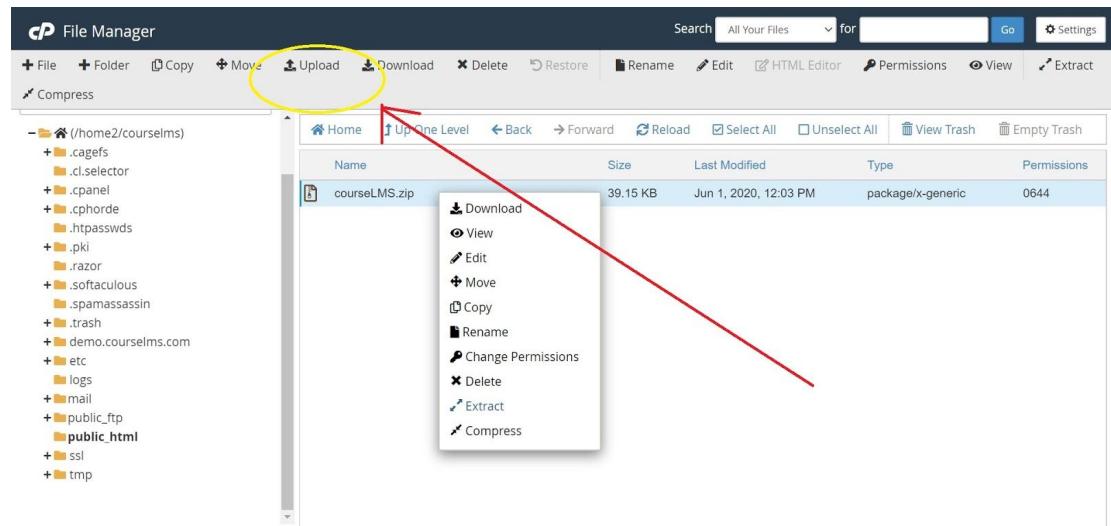

- Login to your Cpanel.
 - e.g "<https://yourdomain.com/cpanel>"
- Click File Manager

- If you want your website to run on "<https://yourdomain.com>", follow the instructions below.
 - Go to the **public_html** folder. You **will find the folder** after clicking **File Manager**. The folder will be on the **left side of the new page**. You have to scroll down and find the folder there.
 - **Click on "public_html"** (screenshot on next page)

- Be sure to click "public_html", After clicking **public_html** the page will take a short refresh. You are in the right folder if you notice the refresh.
- Now, Click on **Upload**. That will take you to a new page. The page will look like-

(Clicking Upload)

cp File Upload

Select the file you want to upload to "/home2/courseslms/public_html".

Maximum file size allowed for upload: 639.22 MB

Overwrite existing files

Drop files here to start uploading
or
[Select File](#)

[Go Back to "/home2/courseslms/public_html"](#)

(New Page after Clicking Upload)

- Upload the "**upload_this.zip**" file from the Downloaded Zip File from "CodeCanyon" here.
- After successful upload click go back-

cp File Upload

Select the file you want to upload to "/home2/courseslms/public_html".

Maximum file size allowed for upload: 639.22 MB

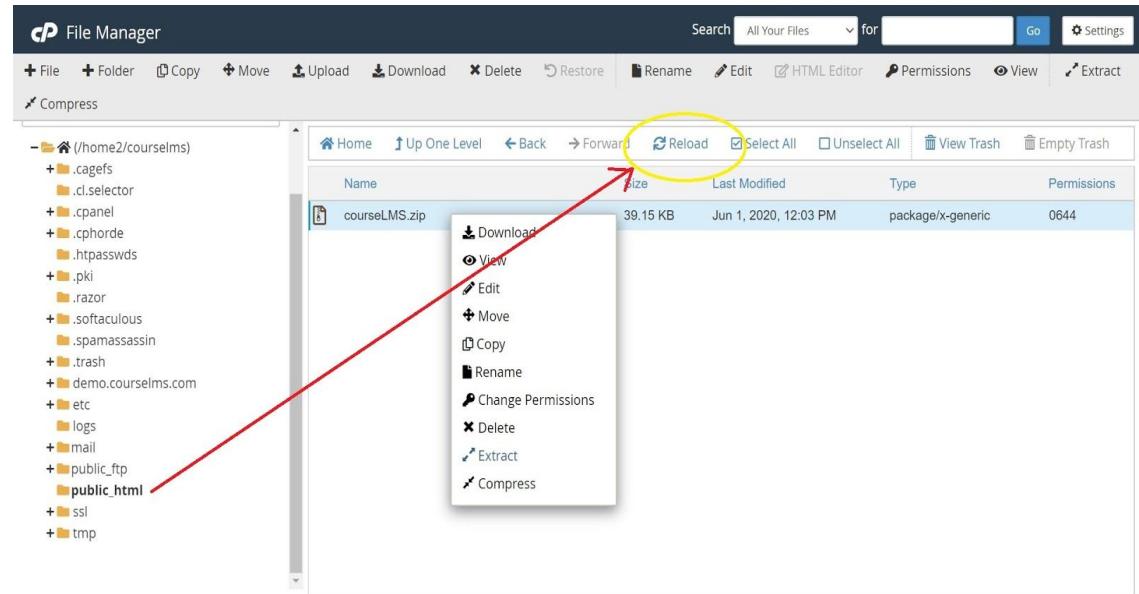

Overwrite existing files

Drop files here to start uploading
or
[Select File](#)

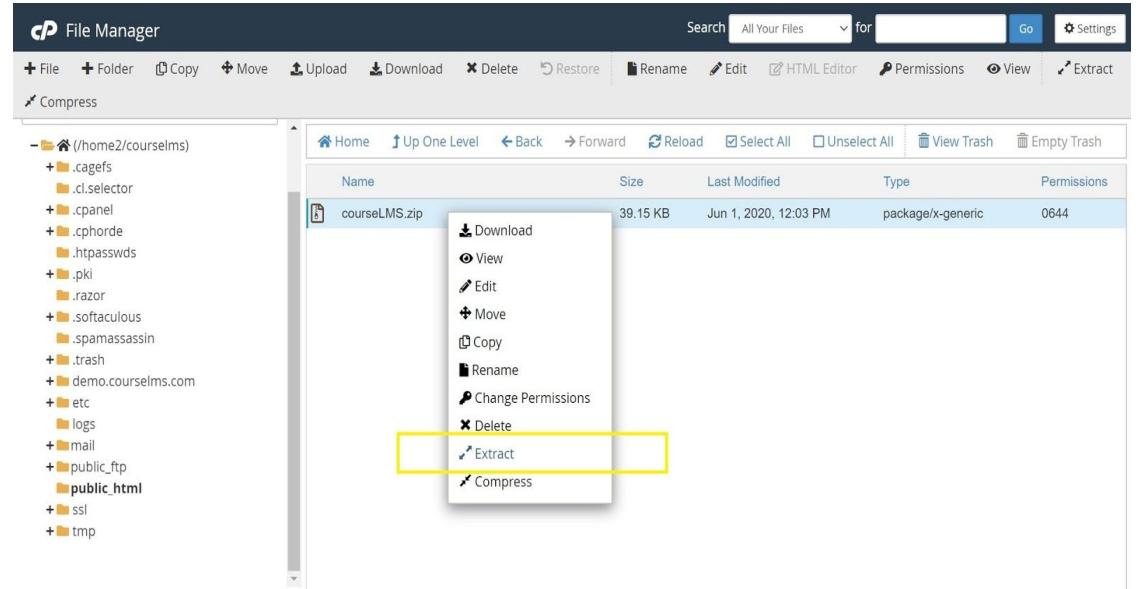

[Go Back to "/home2/courseslms/public_html"](#)

- Click on the "**Go Back to**" option at the bottom of the page. It will take you to the **public_html folder** again. If you accidentally close the window, follow the previous steps to go to the **public_html folder** again.

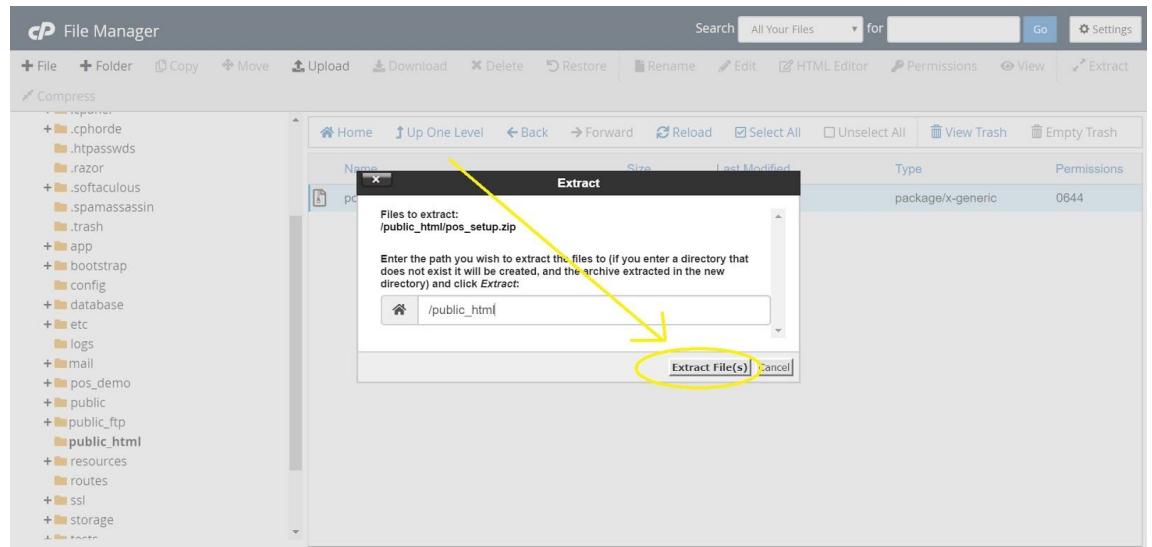

- Click on **reload**, you will see the **uploaded zip file** in the **public_html** folder now.

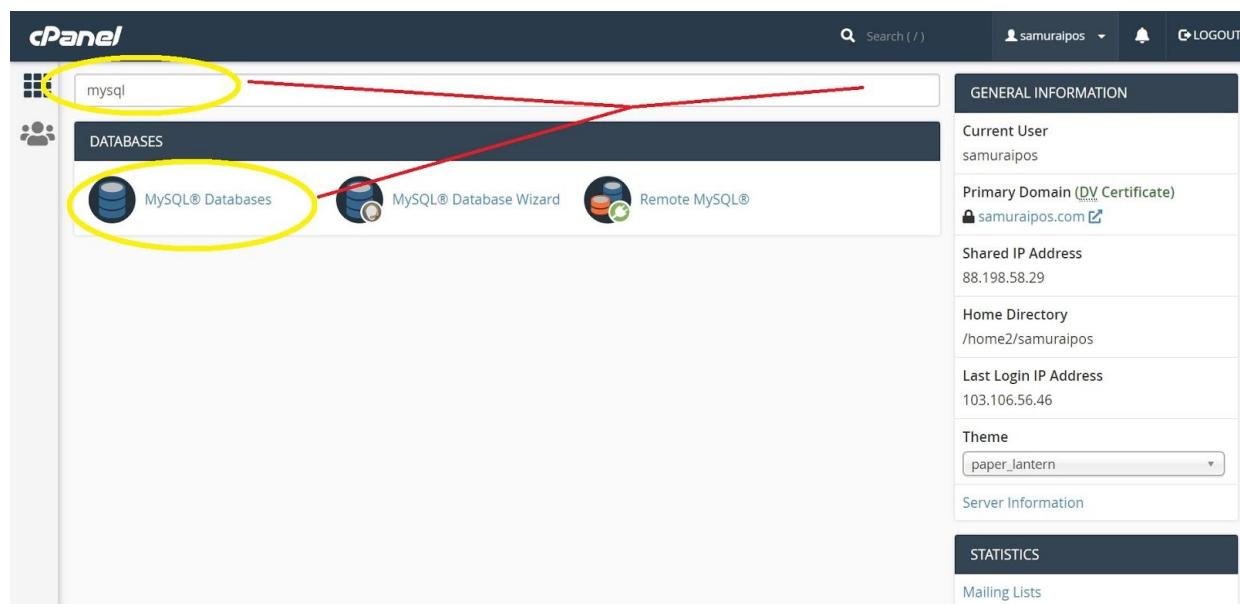

- **"Right click"** on the **Zip File**, you will see some options there.

- Now, Click on Extract to extract the files.

- Confirm Extract Files. The Zip File is now extracted successfully. You are all set to go to the next step.
- Create a new database from your **Cpanel MySQL database**. If you are new to cpanel- Follow the procedure given here to create the database-
 - Login into your cpanel
 - Type MySQL in the **Search Box**
 - Select **MySQL Databases**. A page will come.

- Now create a new **Database**. Type **database name** in the input field and click **Create Database**. A new page will come with successful notification.

The screenshot shows the 'MySQL® Databases' section of the cPanel interface. At the top, there's a header with the cPanel logo, a search bar, and user information. Below the header, the title 'MySQL® Databases' is displayed next to a database icon. A yellow circle highlights the 'Create New Database' section. Inside this section, there's a form with two input fields: 'New Database:' containing 'courseims_' and 'course_ims'. Below the inputs is a blue 'Create Database' button. To the right of this section, an orange arrow points towards a red arrow that is pointing at the 'course_ims' input field. Below the 'Create New Database' section, there's another section titled 'Modify Databases' with its own form.

The screenshot shows the same 'MySQL® Databases' section after a database has been created. A green success message at the top of the page reads 'Added the database "courseims_course_ims".' Below this message, there's a 'Go Back' button. At the bottom of the page, there's a footer with the cPanel logo and version '86.0.21', along with links to 'Home', 'Trademarks', 'Privacy Policy', and 'Documentation'.

- Click **Go Back**.

- Now create a **user for the database**. To create a user, scroll down to **MySQL Users** on the same page.

cPanel

MySQL Users

Add New User

Username: coursecms_course_lms_user

Password: [REDACTED]

Password (Again): [REDACTED]

Strength: Very Strong (90/100)

Create User

Current Users

- Insert **Username & Password**, Click **Create User**. A new page will come with successful notification. Click **Go Back** there.
- Now **Add User to Database** so that the user can use the database. Scroll down to **Add User to Database**.

cPanel

Add User To Database

User: coursecms_course_lms_user

Database: coursecms_course_lms

Add

Current Users

Users	Actions
coursecms_course_lms_user	Change Password Rename Delete

cPanel 86.0.21

- Select the **User & Database** you just have created..
- Click on **Add**. A new page will come. The page will look like-

The screenshot shows the 'MySQL® Databases' section in cPanel. It displays user privileges for the user 'courseims_course_lms_user' on the database 'courseims_course_lms'. A yellow box highlights the 'ALL PRIVILEGES' checkbox. Another yellow box highlights the 'Make Changes' button. A third yellow box highlights the 'Go Back' link.

User: courseims_course_lms_user
Database: courseims_course_lms

Make Changes Reset

Go Back

cPanel 86.0.21 Home Trademarks Privacy Policy Documentation

- Select the **Check box “All Privileges”**.
- Click on **Make Changes**
- Click on **Go Back**.
- The database is now set to install the system.
- Now go to “<http://yourdomain.com>” from your browser. A page will come there which will look like-

Many Vendor Installation

You will need to know the following items before proceeding

✓ Database Host Name
✓ Database Name
✓ Database User Name
✓ Database Password

During the installation process, we will check if the files there needed to be written (**.env file**) have **write permission**. We Will also check if **curl** are enabled on your server or not.

Gather the information mentioned above before hitting the start installation button. If you are ready...

[Start Installation Process](#)

- Click **Start Installation process**. A new page will come which will **normally look like-**

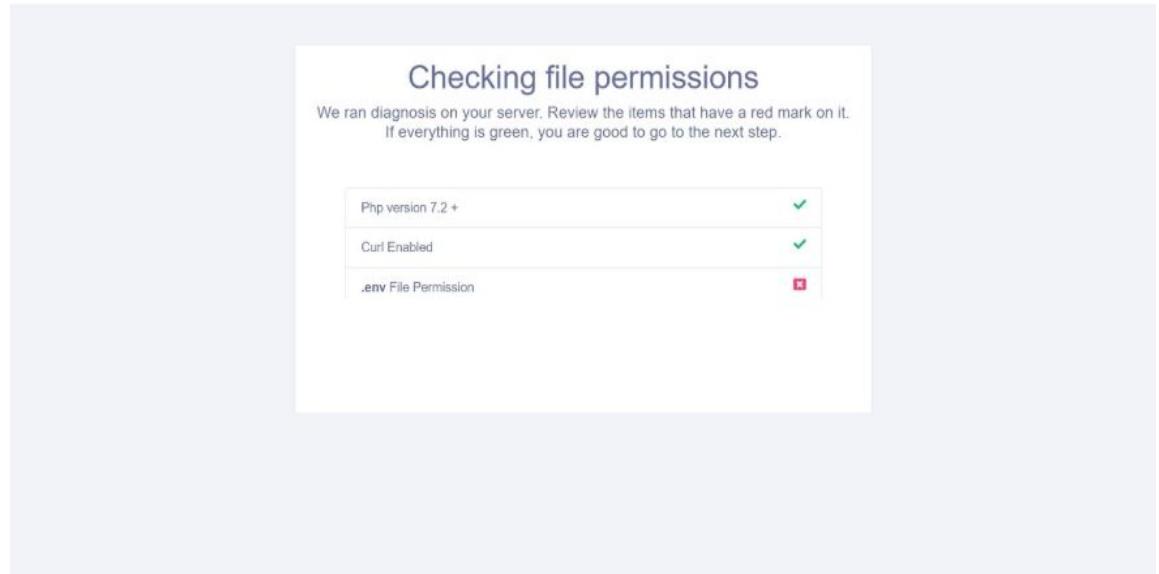

Checking file permissions

We ran diagnosis on your server. Review the items that have a red mark on it.
If everything is green, you are good to go to the next step.

PHP version 7.2 +	✓
Curl Enabled	✓
.env File Permission	✓

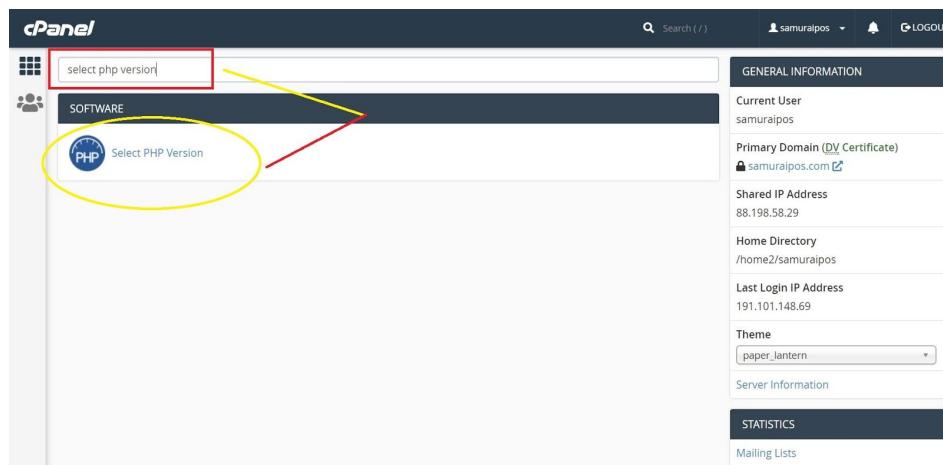

[Go To Next Step](#)

- Click **Go to Next Step** if all the 3 options have a green tick mark on right.
- **If the page looks different, such as like the picture below-** you need to follow some more steps.

- 1. Php version 7.2+

- If there is no green tick mark on the right side, follow the procedures.
 - Login to your **cpanel** (procedure shown a few steps earlier)
 - Search **Select Php Version** just like the picture below-

- Click on **Select Php Version**. A new page will come which will look like-

The screenshot shows the cPanel PHP Selector interface. At the top, there's a search bar and user information. Below it, the 'PHP Selector' section has tabs for 'Extensions' (which is active) and 'Options'. The main area is titled 'PHP Extensions' and shows a list of extensions grouped by letter (A-Z). A dropdown menu is open over the '7.2' option, with 'Set as current' highlighted. The '7.2' option itself is also highlighted with a red box. To the right, there are two columns of extension names with checkboxes. The first column includes pdo, pdo_dblib, pdo_firebird, pdo_mysql, pdo_oci, pdo_odbc, pdo_pgsql, pdo_sqlite, pdo_sqlsrv, pgsql, phalcon3, phar, posix, propro, pspell, psr, raphf, redis, snmp, soap, sockets, and pdf. The second column includes sourceguardian, sqlrv, ssh2, stats, swoole, sysvmsg, sysvsem, sysvshm, tideways, tidy, timezonedb, trader, uploadprogress, uuid, vips, wddx, xdebug, xmleader, xmlrpc, xmliwriter, xsl, and yaf.

- Select **7.2** from the dropdown list.
- Click **Set as current**.
- **Close the page from your browser.**
- **Go to “<http://yourdomain.com>” and continue installation.**

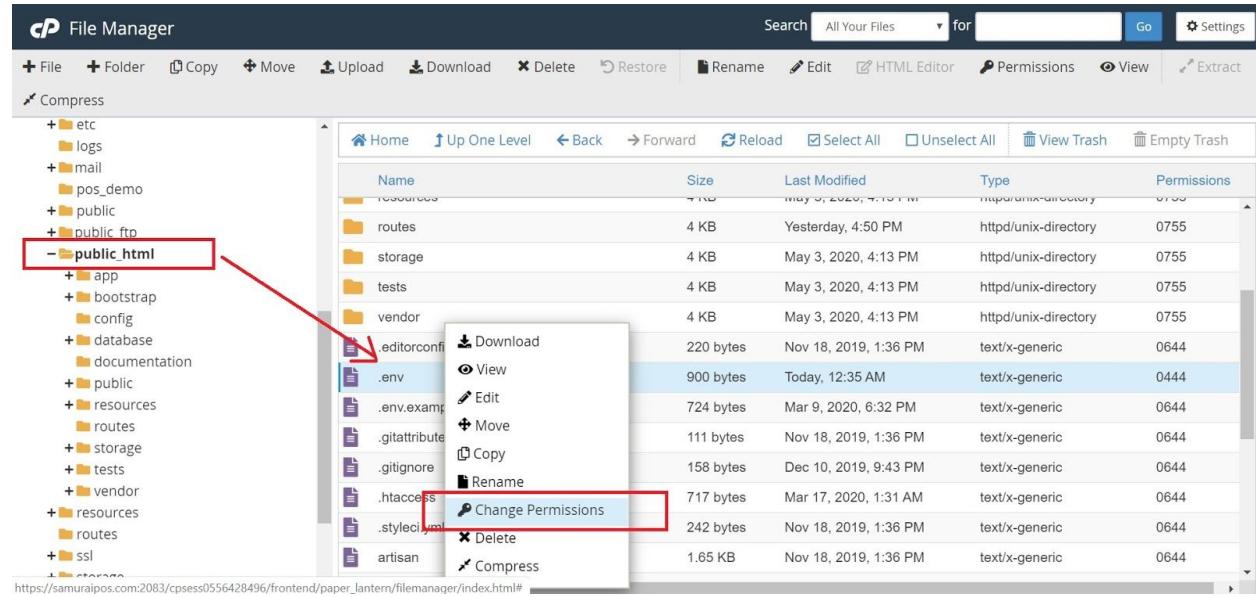

- **2. Curl enabled.**

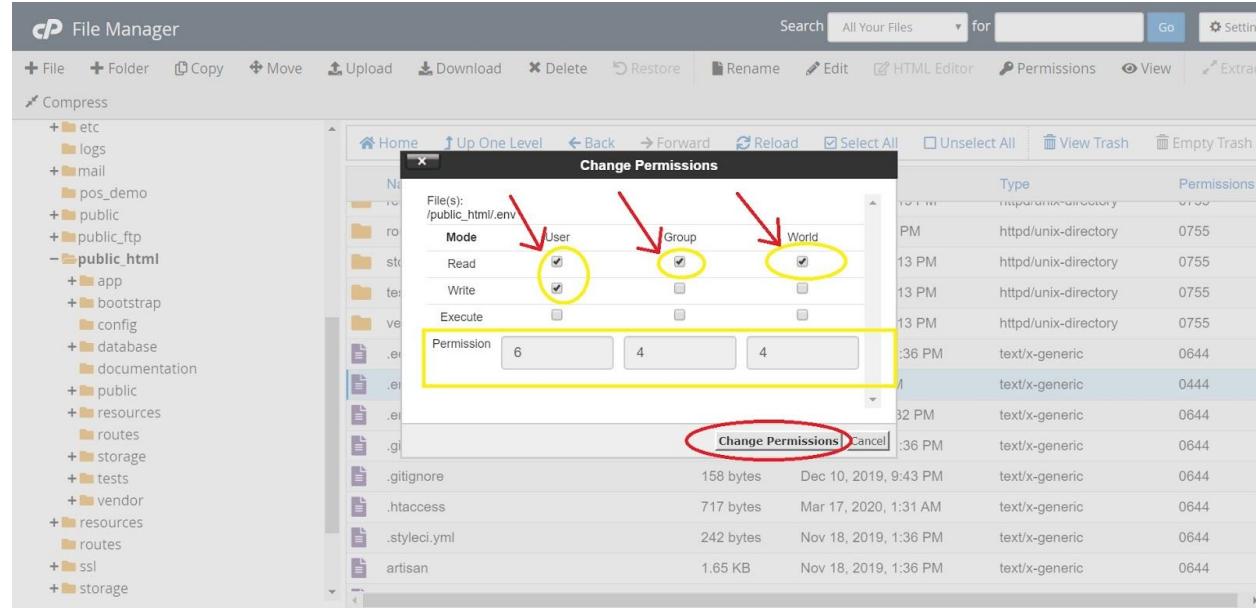

- If there is no green tick mark on the right side, contact your server provider and ask them to enable the curl for you.

- **3. .env file permission**

- If there is no green tick mark on the right side, follow the procedures.

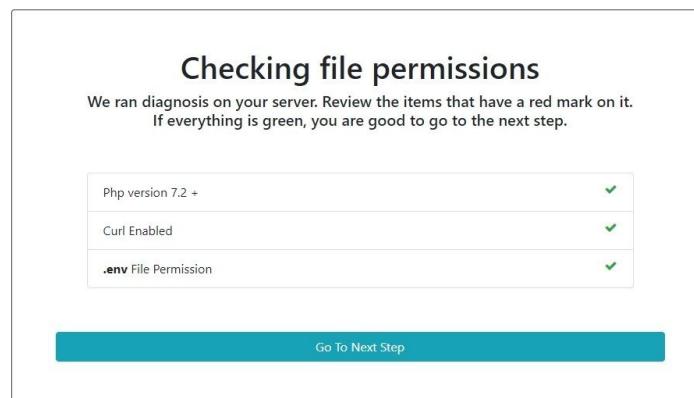

- **Login** to your **Cpanel**.
 - e.g "<https://yourdomain.com/cpanel>"
- **Click File Manager.**
 - Click **public_html**
 - "right-click" **.env** file
 - Click **Change Permissions**. Few options will be visible there.

- Carefully **Check the boxes marked YELLOW** in the options,
Notice the permission value be "6 4 4"
- Click **change permissions**.
- Go to "<http://yourdomain.com>" and continue installation.

- Now you will find 3 green tick marks on right side of the options-

- Click **Go to Next Step**. A new page will come which will look like-

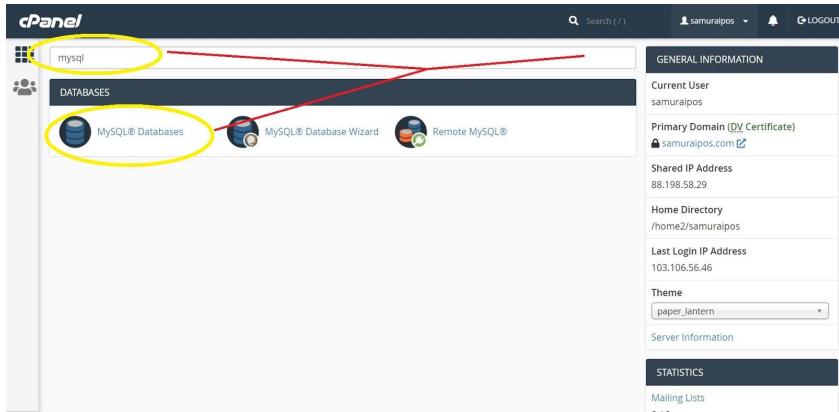

Setup Database

Database Host	<input type="text" value="localhost"/>
Database Name	<input type="text" value="many_vendor_demo"/>
Database Username	<input type="text" value="root"/>
Database Password	<input type="password"/>
Save The Configuration	

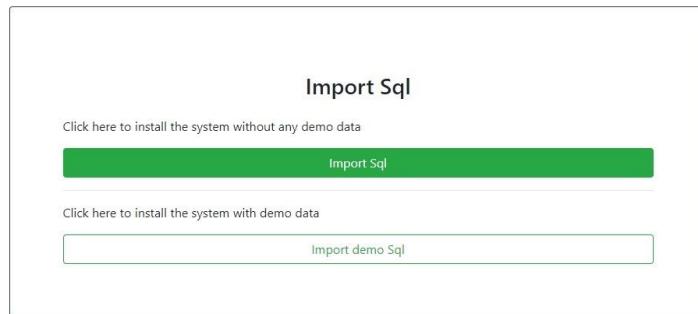

- Now you need to set **Database Host**, **Database Name**, **Database Username**, **Database Password**. Follow this procedure.
 - **Database Host** - Type “**localhost**”.
 - **Database Name** - **yourdomain_databasename**.
 - *example- “manyvendor_databasename”*
 - **manyvendor**= domain name (<https://manyvendor.com>)
 - **databasename** = the name of the database you created from **MySQL Database**.
 - **Database Username** - **yourdomain_username**.
 - *example- “manyvendor_username”*
 - **manyvendor** = domain name (<http://manyvendor.com>)
 - **username** = the name of the user you created from **MySQL Database**.
 - **Password** - Type the password of the user you created from **MySQL Database**.
 - Click **Save the configuration**. A new page will come.

**** If you do not remember the Database Name, Username & Password, go to MySQL database, create a new database,, add a new user, and link the database to the user again.**

- **Repeat the previous steps shown earlier.** It is easier for a new user of cpanel than finding database name, username and resetting the password.

- Now you need to **import the sql file**.

- Just Click on **import sql (demo sql if you want demo data)**, you will be redirected to the **App Setup page**.

App Setup

Active *

Active Vendor

Active

- Activate **E-commerce / Multivendor**.
- Click **Active**, you will be redirected to the next page.
- Insert **Site Name, address, logo and other details**.

- Insert **Page Title**.
- Click **Save**.
- Click **Page Content** from the **Action**(dropdown menu) of the newly created page.
- Click **Page Content**
- Click **Create Content**.
- Insert **Content heading, description**.
- Click **Save**.

14.How to update the website information?

- Login to your system as an Admin.
 - yourdomain.com/login
- Click **Frontend Settings > General Settings**
- Insert **logo, footer logo, favicon**.
- Insert **Name**.
- Insert **Footer**.
- Insert **Address**.

- Insert **Email**.
- Insert **Organization Phone number & Other info**.
- Click **Save**.

15. How to configure SMTP settings?

- Login to your **system as an Admin**.
 - **yourdomain.com/login**
- Click on **Site Settings > SMTP settings**
- Select a mail drive from the dropdown list
- Insert the mail **host**.
- Insert the mail **port**
- Insert the mail **username**
- Insert the mail **password**
- Insert the mail **encryption**
- Insert the **mail from address**, from which mail you want to send mail.
- Insert the **mail from name**, which will be shown as the name of the mail.
- Click on **Save**.
- **(e.g.) Follow the example below to configure your gmail account.**
 - Log in to your gmail account and go to '**My Account**' by clicking on the image in the top right corner.
 - Click the **Sign-in & Security** tab.
 - **Turn off the 2-step verification** feature from Sign in to Google section.
 - **Turn on Allow less secure apps** from Connected Apps & Sites section.
 - After making these changes from your gmail account, go to **Settings > SMTP settings** of the system.
 - Fill up the form as below:
 - MAIL DRIVER : smtp
 - MAIL HOST : smtp.gmail.com
 - MAIL PORT : 587
 - MAIL USERNAME : Your gmail id
 - MAIL PASSWORD : Your password
 - MAIL ENCRYPTION : tls

- MAIL FROM ADDRESS : Your mail address
- MAIL FROM NAME : Your pos name
- Click on **Save**.

16. How to add a new language?

- Login to your system as an Admin.
 - yourdomain.com/login
- Click **Site Settings > language settings**
- First create a language by **inserting a name, language code and selecting the country**.
- Now, Click on the dots from **Action** of the specific language.
- Click on **Translate**.
- Insert translation according to the text.(You can do it in **One Click** by following the instructions given on the translation page).
- Click **Save**.

17. How to set a new currency?

- Login to your system as an Admin.
 - yourdomain.com/login
- Click **Site Settings > Currency Settings**
- Click **Create a currency**
- Insert **Name, Symbol, Code & Rate in USD**
- Click **save**.
- Choose currency alignment from the currency list (symbol left/right side of amount).

18. How to add payment methods?

- Login as an admin.
 - yourdomain.com/login
- Click **Manage System > Payment Methods**.
- Insert necessary info.
- Click **Save**.

19. How to manage homepage sections?

- **Login as an admin.**
 - yourdomain.com/login
- **Click Frontend Settings > Sections.**
- **Drag and Drop** the listed sections to change orders.
- **Click Switches to Active / Inactive**

20. How to add products to a campaign as a seller?

- **Login as a seller.**
 - yourdomain.com/login
- **Click Campaigns > All Campaigns.**
- **Click Your Products** from “**Action**” on your chosen campaign from the list.
- **Add or Remove** products from that specific campaign.

21. How to upload a product as a seller??

- **Login as a seller.**
 - yourdomain.com/login
- **Click Manage Product > Add Product.**
- Select a **Parent Category** from the dropdown list.
- Select a **Child Category** from the dropdown list.
- Select a **Product** from the dropdown list.
- Select **product variants** if there is any.
